

STILL RELYING ON DIESEL?

There's A REASON IT'S CALLED A FOSSIL FUEL.

SolaRover offers engineered, rapidly deployable, mobile solar power generators. Compact, fully mobile units, comparable in power up to a 24kVA gas/diesel generator in a virtually maintenance-free package.

SolaRovers harvest power from the sun and deliver it at a fraction of the cost of diesel, with a greater, total strategic value than fixed solar or wind. SolaRover: Clean, Quiet, Dependable "Grid-Free" power. Available Anywhere, Anytime. Just Plug & Power . . . Today!

Strategic Mobile Solar Power for the World

MOJAVE -CLASS

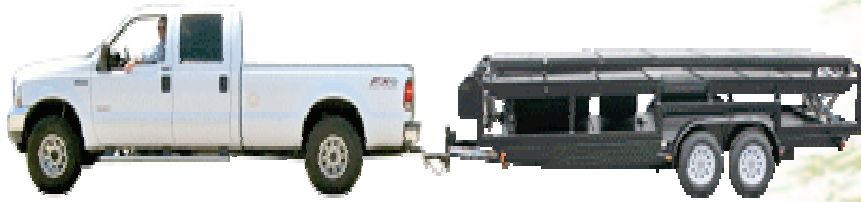

Zero operating costs. 100% green.

Ø Fumes
Ø Noise
Ø Emissions
Ø Maintenance
Ø Fuel

www.solarover.com, 1-888-SOLAR-08

Engineered, rapid response, mobile solar power generators.

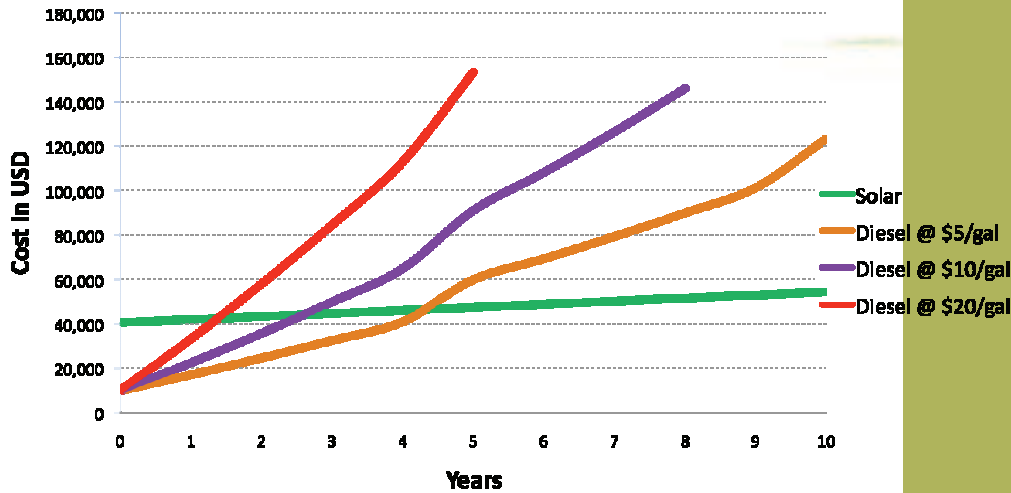

- Unique US company bringing integrated strategic mobile solar power solutions and strategies to its customers.
- Compact power units: Fully mobile; Deliver the power of up to a 24kVA gas/diesel generator.
- Virtually maintenance free.
- Units easily integrate with, or can be independent of, distributed gas/diesel generators or existing conventional power grids.
- Improving the distribution of electrical power & wise use of fossil fuels.
- Bringing 21st century response and preparedness to 20th century infrastructure and logistics.
- Strategic Solutions- Natural disasters-Protection of the environment.

Fossil Fuel Generators v. Mobile Solar Generators

A Quick Comparison

Solar v. Diesel Generator Lifetime Costs (8-12 Hours/Day Operation)

GENERATOR	SOLAROVER	GAS/DIESEL
Run 24/7	YES	<i>MAYBE</i>
Noise	NO	YES
Pollution	NO	YES
Lifespan	20-30 YRS	3-5 YRS
Regular Maintenance	NO	YES
Filters	NO	YES
Overhauls	NO	YES
Tax Credits	YES	NO
FUEL COST	0	\$3/GAL & UP
NO LOAD FUEL USE	MINIMAL	EXCESSIVE

Mojave-3 New Generation

Reliable and Rugged

- Premium, warrantied UL and IEC certified solar components-**Higher power inputs**
- No maintenance
- **Deep cycle batteries for 24/7 power & long life**
- Generates power in cloudy conditions
- **Rugged: harsh conditions, and severe weather conditions**

Easy, Rapid Deployment

- Standard towing hitch; no special permits required
- One-person set-up; about 5 minutes to PLUG 'N POWER
- **International design-fits any ISO shipping container**

Sustainable Design

- ZERO EMISSIONS and no fumes; eco-friendly batteries
- SILENT operation
- **Streamlined “lay flat profile” for efficient transport**
- **20-30 year life with proper maintenance**

SolaRover-Leader-Solutions-Strategy-Products.

Power to go . . . Environmentally- responsible, carbon free, mobile power generation is here TODAY! SolaRover Mojave-3 Mobile Solar Power Systems provide CLEAN consistent electricity for all types of commercial, light industrial, and emergency applications - WHEREVER and WHENEVER needed. Categorically clean, absolutely silent and far more economical long term than investments in portable fossil fuel power generators. With unparalleled engineering, leading-edge components, rugged steel or optimal aluminum construction and a variety of practical options, SolaRover IS THE SOLUTION!

MOJAVE CLASS

MOJAVE - 3

- 3.06-4.32 kW (rated) Solar Panel Array
- 32 kWh of Battery Storage (standard)
- MPPT charge controller/s for optimal battery life and efficiency
 - Battery temperature dependent voltage modulation for peak performance
- High Efficiency Inverters
 - 12kVA surge (standard)
 - 7kVA continuous (standard)
 - 120/240VAC output at 60Hz (standard)
 - Optional 3rd 208VAC 3-phase power
 - Optional 24kVA surge & 14kVA continuous
- US compliant and certified components
- 85-90%+ US content
- DOT certified trailer
- Enhanced wiring for higher efficiency function
- Hybrid generator interconnect standard
- Durable Trailer
 - 2 - 6500lbs torsion axels (optimal ride for electronic components)
 - Engineered for an ISO shipping container (universal)
 - Available in galvanized finish for harsh environments
 - Available light weight all-aluminum construction.
- Also available as a palletized unit

MOJAVE-CLASS

SOLAROVER DELIVERS IDEAL MOBILE SOLAR POWER SYSTEM SOLUTIONS

SolaRover offers a wide variety of product solutions:

- 1.8 up to 7.2 Solar Panel Array
- Up to 80kW Hours of battery storage
- Up to 4 HE Inverters matching 24kVA generator capability
- 120/240 outlets or 208 3 phase
- Generator hybrid capable
- Security cam, flood lights
- Secure storage for electronic equipment and tools
- Workcenter with desk, outlets and canopy

SolaRover: Configured to meet specific needs for:

- Agriculture
- Construction
- Drilling, Mining, Pumping
- Emergency Disaster Relief
- Research Facilities
